

RRR Plant-based Vitamin E for Human Nutrition

Covitol® & Vitapherole®

The industry's most complete range of RRR plant-based vitamin E for health-enhancing food and dietary supplements.

Twice the Bioavailability. Customer Preferred. The Natural Advantages of Covitol and Vitapherole.

For today's consumers, vitamin E is among the most popular supplements, and they vastly prefer plant-based vitamin E over synthetic options. Vitamin E is an essential nutrient with a recommended daily allowance (RDI) and well-established health benefits. Plant-based vitamin E is scientifically recognized to offer twice the bioavailability of its synthetic counterpart.

Kensing is one of the world's purest plant-based vitamin E producers delivering products that are sourced from plant-derived raw materials, are clean-label compatible, and backed by our commitment to quality, consistency, safety, and sustainability.

Kensing Produces RRR Plant-based Vitamin E that Provides Exceptional Health Benefits:*

Helps maintain a healthy heart and blood vessels

Helps maintain healthy brain function

It may play a role in maintaining healthy lungs

Helps maintain healthy vision

Helps preserve a healthy immune system

Helps protect DNA from free radical damage

Helps maintain healthy skin

Helps maintain a healthy body during exercise by reducing excessive levels of free radicals

Helps maintain good health as we age

RRR Plant-based Vitamin E

The Benefits of Covitol® & Vitapherole®

Vitamin E is an essential nutrient and the body's principal fat-soluble antioxidant. It's a powerful scavenger of free radicals: destructive molecules which, if left unchecked, contribute to aging and age-related diseases.

Covitol and Vitapherole offer the industry's most complete line of plant-based vitamin E for health-enhancing supplements, food and drinks. They have the highest standards of product safety and meet the global regulatory requirements in all major markets.

Comprehensive Range – The largest and broadest portfolio of products available in a wide variety of clear viscous oils and free-flowing, spray dried and crystalline powders.

Natural Label – In line with consumers' preferences for all-natural products.

Outstanding Product Quality – Stringent quality control combined with excellent application characteristics.

High Purity – Superior quality, higher purity and lower contaminants compared to competitors.

Proven Bioavailability – U.S. Academy of Sciences has officially recognized that plant-based vitamin E is twice as potent and is retained twice as well as synthetics.

Product Range and Applications

Product*	Description	For Use In	Origin
Covitol 700 WD	RRR-alpha-tocopheryl acetate, min. 515 mg/g (min 700IU/g), water dispersible powder	Food and Supplements	Soy
Covitol 1100	RRR-alpha tocopheryl acetate, min. 809 mg/g (min 1100 IU/g)	Food and Supplements	Soy
Covitol 1360	RRR-alpha tocopheryl acetate, min. 960 mg/g (min 1306 IU/g)	Food and Supplements	Soy
Covitol 1210	RRR-alpha tocopheryl succinate, min. 960 mg/g (min 1162 IU/g)	Food and Supplements	Soy
Covitol F-80/20M	RRR-alpha tocopherol, min. 537 mg/g (min 800 IU/g) and min 190 mg/g non-alpha-tocopherols	Food and Supplements	Soy
Covitol F-1000-2	Free RRR-alpha tocopherol, min. 671 mg/g (1000 IU/g)	Food and Supplements	Soy
Covitol F-1300	Free RRR-alpha tocopherol, min. 872 mg/g (min 1300 IU/g)	Food and Supplements	Soy
Covitol F-1490	Free RRR-alpha tocopherol, min. 960 mg/g (min 1430 IU/g)	Food and Supplements	Soy
Covitol F-1490 C	Free RRR-alpha tocopherol, min. 960 mg/g (min 1430 IU/g)	Food and Supplements	Soy
Vitapherole E 900 Sunflower ORG	Free RRR-alpha tocopherol extracted from sunflower oil, min. 604 mg/g (min 900 IU/g)	Suitable for Organic Foods	Sunflower
